

ALUMNI OF BLUE ROCK

On Tuesday, February 28, 2017, **BRACT** (Blue Rock Alumni Core Team) members participated in a special teleconference. In that call, which included a majority of the membership, we discussed and assessed the state of the team ... including our beginnings, purpose, work, and accomplishments. At the conclusion of that discussion it was unanimously decided that while we have enjoyed the journey evolving from a single point of contact and leadership (1989-2015) to the team that we became (2015) it was time to take the next phase of the journey to improve the service to the Alumni of Blue Rock.

We concluded that this next phase of service to the alumni will be better served individually with the assistance of small teams when appropriate or necessary. We see this as an improvement. **FOR EXAMPLE →** the WW 2017 Reunion continues to be passionately led by a team of four individual alumni. You have been seeing Blue Rock Alumni Facebook posts and events, Blue Rock Website postings, and a mass email to all alumni is planned and in progress. Mike and his team, Janet, Paula, and Steve are doing their usual outstanding job. *And if I know Mike he will be leading this event many more years.* Please support them with your interest, attendance, and passion to help keep the alumni together.

All Alumni of Blue Rock, including former BRACT members, are encouraged to think about how and in what way we can **KEEP US ALL TOGETHER**. Former BRACT members will continue to help by resourcing projects and work that anyone of us alumni can lead as each alumni sees the need or desire. We also realize that change and further evolution on our journey will occur and the way the alumni stays together will continue to evolve and improve.

Thank you for allowing us to serve you these last two years. **We are all blessed by having been part of one of the greatest drum and bugle corps that ever marched this earth.**
